Operating System

PROJECTS

REALESTATE | APRIL 2023

GitHub

- REALESTATE offers a comprehensive real estate solution that effectively connects buyers and sellers through the assistance of agents. The platform enables sellers to create listings for their properties, which potential buyers can browse and directly communicate with the sellers via a mediator.
- Backend : MYSQL
- frontend : Python(Tkinter)

ACHIVEMENTS

- Actively participated in open source : Hacktoberfest 20,22 (Badges)
- Successfully completed the freeCodeCamp.org Responsive Web Design (Certificate)
- Created and Managed Cloud Resources (Certificate)
